**Subject:** Please OPPOSE the APS Proposal

Mar 28, 2017

Commissioner Bob Burns  
1200 W Washington St.  
Phoenix, AZ 85007

Dear Commissioner Burns,

I am contacting you today about Arizona Public Service Company's proposal to increase the Basic Service Charge on customer electric bills.

Many older Arizonans live on a fixed income. Those customers on a basic rate plan will have to pay this increase even before turning on a light switch and no matter how much energy is used in their home. It's just not right to increase the fixed charge portion of the bill.

The APS proposal is harmful to consumers. It may drive up electric bills and gives many consumers less control over how much they pay every month.

Please do the right thing and OPPOSE the APS proposal.

Thank you,

Ms. Judy Walker

Mar 26, 2017

Commissioner Bob Burns  
1200 W Washington St.  
Phoenix, AZ 85007

Dear Commissioner Burns,

I am contacting you today about Arizona Public Service Company's proposal to increase the Basic Service Charge on customer electric bills. I have lived in Arizona since 1957 and watch electric bills continue to climb with little or no real impact by the corporation commission. With the current availability of alternate renewable eneergy resources we should be seeing a their impact; however, the electric companies and the corporation commission have manage to thwart their development.

Many older Arizonans live on a fixed income. Those customers on a basic rate plan will have to pay this increase even before turning on a light switch and no matter how much energy is used in their home. It's just not right to increase the fixed charge portion of the bill.

The APS proposal is harmful to consumers. It may drive up electric bills and gives many consumers less control over how much they pay every month. So in a probably futile effort to appeal to your better senses, show some common sense and start doing your job for the people of this state not the energy corporations. Profit is one thing, abuse of your fiduciary responsibility is another.

Please do the right thing and OPPOSE the APS proposal.

Thank you,

Mr. Michael Smith

Dear Commissioner Burns,

I am contacting you today about Arizona Public Service Company's proposal to increase the Basic Service Charge on customer electric bills.

Many older Arizonans live on a fixed income and I'm sure they would be pleased to get an 87% Social Security increase. We know that won't happen. Don't take more money away from the elderly that can be used for every day living. Those customers on a basic rate plan will have to pay this increase even before turning on a light switch and no matter how much energy is used in their home. It's just not right to increase the fixed charge portion of the bill.

The APS proposal is harmful to consumers. It may drive up electric bills and gives many consumers less control over how much they pay every month.

Please do the right thing and OPPOSE the APS proposal.

Phoenix, AZ 85007

Dear Commissioner Burns,

I am contacting you today about Arizona Public Service Company's proposal to increase the Basic Service Charge on customer electric bills.

Many older Arizonans live on a fixed income. Those customers on a basic rate plan will have to pay this increase even before turning on a light switch and no matter how much energy is used in their home. It's just not right to increase the fixed charge portion of the bill.

The APS proposal is harmful to consumers. It may drive up electric bills and gives many consumers less control over how much they pay every month.

Please do the right thing and OPPOSE the APS proposal.

Thank you,

Mrs. Debra Adams  
1030 E Tuckey Lane  
Phoenix, AZ 85014

If you were asking for a rate increase to help the seniors with limited and fixed income, I would have no objection. However, you want us to hand you more money so that you may buy more politicians. Not very nice.

Thank you,
